Enhancing government accountability.

(AS OF HOUSE 2ND READING 2/06/04)

Finds that: (1) Citizens demand and deserve more accountability of public programs;

(2) Washington state government and other entities that receive tax dollars must continuously improve the way they operate and deliver services so citizens receive maximum value for their tax dollars;

(3) A comprehensive system of measuring performance is necessary to evaluate the effectiveness of agency programs and agency performance management practices, and to demonstrate accountability; and

(4) Fair, independent, and professional audits of agency performance are necessary to ensure that government programs are achieving their intended goals and using their resources in the most productive manner.

Creates the citizen oversight board to improve efficiency, effectiveness, and accountability in state government.

Provides that the board will work with the office of financial management and the joint legislative audit and review committee regarding reviews of agency performance measurement systems. HB 1517-S2 by House Committee on Commerce & Labor (originally sponsored by Representatives Cooper, G. Simpson, Conway, Sullivan and Wallace)

Establishing objectives for certain fire department services.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Declares an intent to set standards for addressing the occupational safety and health of substantially career fire department employees, and to specify performance measures applicable to response time objectives for certain major services.

Acknowledges the efforts of the international city/county management association, the international association of fire chiefs, and the national fire protection association for the organization and deployment of resources for fire departments. The arrival of first responders with automatic external defibrillator capability before the onset of brain death, and the arrival of adequate fire suppression resources before flash-over is a critical event during the mitigation of an emergency, and is in the public's best interest.

Does not, and is not intended to, in any way modify or limit the authority of the department of labor and industries to adopt rules under chapter 49.17 RCW applying to fire departments or otherwise addressing the occupational safety and health of fire fighters.

Requires every fire department to evaluate its level of service and deployment delivery and response time objectives on an annual basis. The evaluations shall be based on data relating to level of service, deployment, and the achievement of each response time objective in each

geographic area within the jurisdiction of the fire department.

Provides that, beginning in 2006, every fire department shall issue an annual written report which shall be based on the annual evaluations required by this act.

HB 1548-S by House Committee on Commerce & Labor (originally sponsored by Representatives McCoy, Hudgins, Conway, G. Simpson and Kenney; by request of Department of Labor & Industries)

Authorizing penalties for wage payment violations.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that over five thousand state residents per year file cases and complaints with the department of labor and industries alleging they have been denied payment for work they performed. The department of labor and industries currently does not have an effective means of addressing these complaints in order to ensure workers are paid the wages they are owed.

Finds that the Washington state minimum wage law and wage claim laws do not authorize adequate penalties against violators. To improve compliance, the department of labor and industries should be allowed to assess interest on back wages and impose civil penalties against employers who are found to be not in compliance with chapters 49.46 and 49.48 RCW.

Declares that an employer found to have violated any of the provisions of this act may be assessed a civil penalty of not less than one hundred dollars and not more than one thousand dollars for each violation per employee, and may be assessed a civil penalty of not more than one thousand dollars for each subsequent violation found in the citation or notice of assessment. Each day a violation occurs may constitute a separate violation.

Creates the employment standards enforcement account in the state treasury. All receipts from civil penalties assessed under chapter 49.46 RCW and chapter 49.48 RCW must be deposited in the account. Expenditures from the account may be used only for the employment standards program administered by the department of labor and industries.

Concerning retail sales by the liquor control board.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Directs the board to devise a retail business plan, or amend an existing retail business plan, to implement strategies to improve the efficiency of retail sales operations and maximize revenue-generating opportunities. Strategies to be implemented shall include, but are not limited to expanding store operations to include Sunday sales in selected liquor stores until February 1, 2006.

Provides that, by September 1, 2004, the board shall implement a pilot program to expand operations in at least twenty state-operated retail stores to include Sundays.

Requires the board to track gross sales and expenses of the selected stores and compare them to previous years' sales and projected sales and expenses before opening on Sunday. The board shall also examine the sales of state and contract liquor stores in proximity to those stores opened on Sundays to determine whether Sunday openings has reduced the sales of other state and contract liquor stores that are not open on Sundays. The board shall present this information to the appropriate policy and fiscal committees of the legislature by January 31, 2006.

Provides that, before the board determines which state liquor stores will be open on Sundays, it shall give: (1) Due consideration to the location of the liquor store with respect to the proximity of places of worship, schools, and public institutions; and

HB 2154-S by House Committee on Commerce & Labor (originally sponsored by Representatives Wood, Conway, Anderson, Tom, Ericksen and McCoy)

Making spinal cord stimulators and drug infusion pumps available to injured workers.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that: (1) Spinal cord stimulators are effective sources of pain relief for patients with chronic pain conditions and are covered by forty-nine of fifty state industrial insurance programs as well as medicare, medicaid, and all major private insurers in the state of Washington. Many Washington self-insurers cover the machines under their industrial insurance as well.

(2) Patients cannot be expected to return to a productive life or carry out the activities of daily living if they are in severe chronic pain. Pain control is an essential feature of any muscular-skeletal rehabilitation regimen. Spinal cord stimulators are often preferable to the administration of oral narcotics because they dramatically reduce the adverse side effects of narcotics.

(3) Recent advances in medical technology have substantially improved the life and performance of the implanted devices.

Directs the department to develop treatment guidelines for spinal cord stimulators at least in accordance with relevant standards adopted by national payors and most state industrial insurance programs. Nothing in this act prevents the department from making informed decisions about the appropriateness of the device in a specific case in accordance with the standards referred to in this act.

Establishing a Dungeness crab endorsement. Revised for 1st Substitute: Modifying Dungeness crab management provisions.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that it is necessary to accurately and efficiently quantify the total catch by recreational fishers for Dungeness crab using data from catch record cards. Therefore, an endorsement fee on the catch record card paid at the time of purchasing a recreational fishing license will be required for Dungeness crab to specifically identify the recreational crab harvesting population.

Declares that the endorsement fee will significantly improve the precision of the catch estimates by eliminating the current practice of sampling fishers who do not participate in the recreational crab fishery.

Provides that a license to take and possess Dungeness crab is only valid in Puget Sound waters east of the Bonilla-Tatoosh line if the fisher has in possession a valid catch record card officially endorsed for Dungeness crab. The endorsement shall cost no more than three dollars including any or all fees authorized under RCW 77.32.050.

Requires the funds received from the Dungeness crab endorsement to be used only for the sampling, monitoring, and management of catch associated with the Dungeness crab recreational fisheries. Moneys allocated under this provision shall supplement and not supplant other federal, state, and local funds used for Dungeness crab recreational fisheries management.

The department shall report their findings to the appropriate committees of the legislature by May 15, 2006.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that, though many people in Washington have been assisted by the food stamp program, there are significant numbers of eligible families who do not receive food stamps. Finds that it is in the interest of the people of the state, the nation, and Indian tribes located within the state to

SB 6160-S by Senate Committee on Health & Long-Term Care (originally sponsored by Senators Parlette, Keiser and Pflug)

Regarding fairness and accuracy in the distribution of risk in boarding homes and nursing homes.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the inspection, reinspection, and complaint investigation process for licensed boarding homes and nursing homes should facilitate open and candid communication between licensers, providers, and residents or their legal representatives.

Finds such communication and quality assurance efforts will promote compliance with regulations by providers and achieve the goal of providing high quality of care to citizens residing in licensed boarding homes and nursing homes, and may reduce property and liability insurance premium costs for such facilities.

Provides that, if during an inspection or reinspection by the department, a boarding home corrects a violation or deficiency that either the boarding home or the department discovers, the licenser or complaint investigator shall not include in the facility report the violation or deficiency if the violation or deficiency: (1) Is corrected to the satisfaction of the department prior to the exit conference;

(2) Is not recurring; and

(3) Did not pose a significant risk of harm or actual harm to a resident.

Declares that, for the purposes of this act, "recurring" means that the violation or deficiency was found under the same regulation or statute in one of the two most recent preceding inspections or reinspections.

Requiring storm water and wetland mitigation for public-use airports to be compatible with safe airport operations.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that new public-use airport development projects may result in unavoidable impacts to storm water runoff or wetlands that require mitigation. Storm water and wetland mitigation that attracts or sustains hazardous wildlife on or near public-use airports can significantly increase the potential for wildlife-aircraft collisions.

Declares an intent that regulatory decisions by the departments of ecology and fish and wildlife regarding storm water and wetland mitigation resulting from public-use airport development projects should, to the maximum extent allowable under federal and state law, be compatible with safe airport operations.

Provides that, when making a permit or other regulatory decision under the guidance of chapter 90.74 RCW relating to the infrastructure development needs of public-use airports, the departments of ecology and fish and wildlife shall consider the compatibility of the permit condition or regulatory decision with the aircraft and airport operational safety requirements of the federal aviation administration. The departments of ecology and fish and wildlife may not require an airport operating under the authority of chapter 14.08 RCW to engage in land uses that are incompatible with the federal aviation administration's recommended land use practices relating to aircraft and airport operational safety.

Studying criminal background check processes.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that some states have recently developed comprehensive criminal history record information background check programs. These programs focus on making criminal history record information background checks easily accessible to employers and prospective employees and have eliminated long response times. It is the intent of this act to study advances with criminal history record information background check programs in other states and determine what is needed to implement similar programs in Washington state.

Changing provisions relating to serious offenses in the context of competency restoration. Revised for 1st Substitute: Changing provisions relating to competency restoration.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that the decision in *Sell v. United States*, ___ U.S. ___ (2003), requires a determination whether a particular criminal offense is "serious" in the context of competency restoration and the state's duty to protect the public.

Finds that, in order to adequately protect the public and in order to provide additional opportunities for mental health treatment for persons whose conduct threatens themselves or threatens public safety and has led to contact with the criminal justice system in the state, the determination of those criminal offenses that are "serious" offenses must be made consistently throughout the state.

Provides that, in order to facilitate this consistency, the legislature intends to determine those offenses that are serious in every case as well as the standards by which other offenses may be determined to be serious.

Declares an intent to clarify that a court may, to the extent permitted by federal law and required by the *Sell* decision, inquire into the civil commitment status of a defendant and may be told, if known.

Provides that, for purposes of determining whether a court may authorize involuntary medication for the purpose of competency restoration pursuant to RCW 10.77.090, a pending charge involving any one or more of the following crimes is a serious offense per se in the context of competency restoration: (1) Any violent offense, sex

offense, serious traffic offense, and most serious offense, as those terms are defined in RCW 9.94A.030;

(2) Any offense, except nonfelony counterfeiting offenses, included in crimes against persons in RCW 9.94A.411;

(7) Any city or county ordinance or statute that is equivalent to an offense referenced in this act.

Provides that, when the court must make a determination whether to order involuntary medications for the purpose of competency restoration, the court shall inquire, and shall be told, consistent with federal law and to the extent that the prosecutor or defense attorney is aware, whether the defendant is the subject of a pending civil commitment proceeding or has been ordered into involuntary treatment pursuant to a civil commitment proceeding.

Reducing air pollution from heavy duty diesel vehicles and large vessels.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that the air quality around idling heavy duty diesel vehicles and large vessels can contribute to unhealthy conditions.

Recognizes that idling vehicles contribute to driver fatigue through exposure to noise, vibration, and elevated levels of carbon monoxide and other pollutants.

Declares that the state can assist in the reduction of idling vehicles and vessels by providing infrastructure to support the use of auxiliary power through a system of stand-alone and on-board electrification projects.

Recognizes that many other states, the federal government, and the countries of Canada and Mexico and private sector organizations are examining the issues related to this problem. Washington state must work cooperatively with these governments and organizations to seek compatible solutions to improve the air quality.

Declares an intent to provide assistance to owners and operators of heavy duty diesel vehicles which contribute to areas of concentrated air pollution by providing infrastructure to support the electrification of these facilities and seeking federal assistance to aid the owners and operators of vehicles, vessels, and trains to modify their equipment to accept auxiliary power when stationary.

Declares an intent to support electrification projects in areas where the current conditions are especially harmful to human health and there exist cost-effective solutions.

Directs the department to develop, in consultation with the department of transportation and the Washington public ports association, a list of approximately ten sites where cost-effective electrification projects appear to be practical and could be initiated for heavy duty diesel vehicles or large vessels. The sites shall be selected in areas where these vehicles and vessels commonly operate their engines or run diesel generators, while stationary, for lengthy periods of time. The department shall also develop a list of recommended nonelectrification options for improving the air quality at truck stops and in marine ports.

Directs the department to seek financial assistance from federal and nonstate sources to fund stand-alone and on-board electrification infrastructure projects, and to assist owners and operators of heavy duty diesel vehicles and large vessels to modify their on-board equipment to accept auxiliary power when stationary.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that improved access to federal nutrition and assistance programs, such as the federal food stamp program, can be a critical factor in enabling recipients to gain the ability to support themselves and their families. Regarding the use of portable or cellular phones or paging telecommunications devices by students.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes that cellular or portable phones may be used for inappropriate activities during school hours and on school property and may, on occasion, cause disruption in the classroom environment, and also recognizes that the use of cellular or portable phones can decrease the response time of officials to emergency situations. In addition, cellular or portable phones allow parents an additional and timely method of contacting their children in the event of an emergency.

Provides that school district boards of directors may adopt policies that limit the use by a student while in school, on school property, on public school transportation, or during school-sponsored activities.

Declares that a school district board of directors shall not adopt policies and shall amend current policies prohibiting students from possessing paging telecommunication devices or portable or cellular phones. (DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that quantities of ephedrine, pseudoephedrine, and phenylpropanolamine continue to be sold at the wholesale and retail levels far in excess of legitimate consumer needs. The excess quantities being sold are most likely used in the criminal manufacture of methamphetamine.

Declares it is therefore necessary to further regulate the sales of these drugs, including sales from out-of-state sources, in order to reduce the threat that methamphetamine presents to the people of the state.

Authorizing the release of patient records for the purpose of restoring state mental health hospital cemeteries. Revised for 1st Substitute: Authorizing the release of patient records for the purpose of memorializing persons interred in state hospital cemeteries.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Finds that social stigmas surrounding mental illness have prevented patients buried in the state mental health hospital cemeteries from being properly memorialized. From 1887 to 1953, the state buried many of the patients who died while in residence at the three state mental health hospitals on hospital grounds. In order to honor these patients, the legislature intends that the state be allowed to release records necessary to appropriately mark their resting place.

Directs the department of social and health services to make available the name, date of birth, and date of death of patients buried in state hospital cemeteries fifty years after the death of a patient.
